

## WebMaster Guidelines and Instructions

REALTORS, we have developed a Home Staging Video that your clients can use to help them prepare their home to sell faster and for more money. In this extremely difficult market for sellers this is a great tool. This video communicates to your listing clients the importance of preparing their home to sell without being offensive. This Home Staging video is professionally done and the best part is you can use it for FREE!

### Two Video Programs

There are two easy ways you can use this video

#### Really Easy program

The Really Easy program consists of us creating a co-branded webpage on our website that consists of your photograph, the Home Staging video, and some other valuable information for your clients all absolutely FREE! To see a sample [click here](#).

#### Just Plain Easy program

The Just Plain Easy program allows you to actually post the video on your own website wherever you choose also absolutely FREE! To see an example of this [click here](#).

**How Can I Get Started** I'm sure you're thinking "Sounds great but I'm an expert in Real Estate NOT websites! How do I get started?" Great Question - there are two ways to get started.

#### Do it Yourself

If you or another Technical Person can make a few small changes to your website then this is the best solution for you.

#### Turn Key

If you don't have anyone to make changes to your website then just contact us for more information. One of our helpful webmasters can make the necessary changes for you. Just click here to request more info [ecare@uboxes.net](mailto:ecare@uboxes.net).

## Do it Yourself

The Do it Yourself is as easy as 1-2-3 just have them follow the 3 easy steps below.

### The Really Easy Program

1. The first step is to [register here](#) so you can get set-up in the system.
2. The second step is to add one of our graphics to the Home Page of your website. This directs your clients to your video page and offers them a 10% discount on moving supplies.
3. The final step is to send your picture to us so we can add it to your video page.

### The Just Plain Easy Program

1. The first step is to [register here](#) so we can get you set-up in the system.
2. The second step is to add one of our graphics to the Home Page of your website which will direct your clients to the webpage you've chosen on your website and give your clients a 10% discount on moving supplies.
3. The final step is to add the video to your website.

## Really Easy Program – Setup a Co-branded Home Staging Video Page

Step 1 is to [register](#) the Real Estate Agent with Uboxes.com. This is a quick and easy process that will take about 60 seconds.

Step 2 of setting up your Co-branded Home Staging video page is choosing a graphic and adding it to your Home Page. Because we do not charge for the use of our Home Staging video, we only ask that you add a qualified link from your Home Page.

To easily link your site to your Co-branded video page we have created several banners for you. Once you register and log in choose the banner that is right for you. Then copy and paste the HTML Code for your banner choice and replace the "your code" of the HTML code with your unique Affiliate ID. This ID is important because it

inserts your photograph into your Co-branded video page. Your unique Affiliate ID is provided once you register and log in.

An Example of what it looks like is below:

<http://www.uboxes.com/default.aspx?Affiliate=ExampleNumber>

You can ignore the **green highlighted** section of the HTML code.

You can then add the revised HTML to the Home Page.

Step 3 of setting up your Co-Branded Home Staging video is uploading your photograph. There are two ways to upload your photo, the first is to log in and go to Step 3 of the REALTORS section. The second way to upload your photo is to email the photo to [ecare@uboxes.net](mailto:ecare@uboxes.net). Make sure to include the name of the agent and an email in case we have questions.

Once you upload your photo - you are ready to go!

## Just Plain Easy - Add Home Staging Video to Agent Website

Step 1 is to [register](#) the Real Estate Agent with Uboxes.com. This is a quick and easy process that will take about 60 seconds.

Step 2 of setting up your Co-branded Home Staging video page is choosing a graphic and adding it to your Home Page. Because we do not charge for the use of our Home Staging video, we only ask that you add a qualified link from your Home Page.

To easily link your site to your Co-branded video page we have created several banners for you. Once you register and log in choose the banner that is right for you. Then copy and paste the HTML Code for your banner choice and replace the **green** and **yellow** sections of the HTML code with the URL where you intend on placing the video.

An example of the code that you will replace is below:

<http://www.uboxes.com/partners.aspx?AffiliateID=YOURCODE>

You can then add the revised HTML to the Home Page.

Step 3 of adding the Home Staging video to the agent's website is to add the video coding to the webpage where you want the video to go. Once you register and log in this coding will look similar to below.

```
<div align="center"><iframe style="height:410px;width:549px" frameborder="0"
marginwidth="0" framespacing="0" scrolling="no"
src="http://www.uboxes.com/staging_videos/index.html">
</iframe></div><table width="549" border="0" align="center" cellpadding="5"
cellspacing="0"> <tr> <td width="50%"><p align="center" style="font-family: Calibri,
Verdana, Arial"><b>Save 10% on Moving Boxes<br> and Moving
Supplies</b></p></td> <td width="50%"><a href="http://www.uboxes.com"></a></td> </tr></table>
```

Just add these lines of coding below and your done!

Either of our Programs are as easy as 1-2-3, and if you need any technical assistance one of our helpful staff would be glad to talk to you 1-877-826-9371.
