

# Mattress Box Assembly Instructions

Thank you for purchasing the expandable mattress kit that can be used for Twin, Full, Queen, and King.

Mattress Sizes	Size
Twin	39" x 75" x 10"
Twin XL	39" x 80" x 10"
Full	54" x 75" x 10"
Queen	60" x 80" x 10"
King	76" x 80" x 10"

The kit is designed for one of the box sleeves to fit into the other sleeve making the box size variable depending on the type (size) of mattress being shipped.

The kit comes with all you will need to protect your mattress. The kit includes:

- Two flexible corrugated box sleeves
- Durable plastic mattress bag
- Packaging tape to seal the box for shipping
- Instructions

UBOXES recommends that two people be present to assemble and load the mattress box to ensure that it is assembled safely and loaded with minimal effort. Video: <https://www.youtube.com/watch?v=BnaltZjc0Dw>

The assembly instructions are as follows:

1. Take the outer plastic wrap off the package to separate the two box sleeves, tape and mattress bag.
2. Place your mattress in the durable plastic mattress bag and tape it closed.
3. Using scissors, cut the straps around the two box sleeves and then unfold & separate them. You will note that one box sleeve will be slightly longer than the other so that the panels nest together.
4. Fold in the small flaps on the end of the box and then tape down the seam.
5. Fold the long sides of the box sleeve over the smaller end flaps and secure with tape.
6. Stand the mattress box sleeve straight up and insert your mattress into the open side as far as it will go (it is suggested that this be done near a wall for support while box sleeve #2 is assembled)
7. Repeat above steps 4, 5 and 6 for the second sleeve.
8. Once the second box sleeve is assembled, insert the open end into/over the first box sleeve (with mattress inside) pushing them together to secure the entire mattress inside the mattress box sleeves. Once pushed together, securely apply tape around the box so that the box sleeves are secured around the mattress width. This will prevent the box sleeves from separating.

To help visualize the above instructions, below are a couple of pictures:
